

SUCCESSFUL

MEN

Are those who sit down and consider things carefully. They are sure they are right before making a move, but when they start they keep right ahead. A successful man makes up his mind what he wants, and then gets the best of it.

THE NEXT BEST WON'T DO.

The best fire insurance is the kind he buys. He knows the best insurance is possible only when the agents are competent to write a policy right, and when the companies he insures in are strong and reliable.

Long experience has made us thoroughly competent, and the companies we represent are the strongest in the world.
